ARTWORK REQUIREMENTS

FORMAT: Artwork should preferably be supplied in pdf format with fonts packaged into the file. GIF, jpg, Coreldraw and MS Publisher files are not accepted. 300dpi resolution files are preferred. Resolutions under 300dpi are not accepted.

BLEEDS: For Cover, Main Editorial Section and Special Feature adverts a 5mm bleed margin MUST be included on all sides of the advert as they may be placed on a trimmed page edge. Directory Section adverts do NOT require a bleed margin.

Text or critical graphics should NOT be placed within 5mm of the edge of the advert.

COLOUR: Artwork must be in CMYK with no spot colours. RGB is not accepted. To avoid the the risk of fuzzy print, black text should be specified as 100K. Rich Black text using more than two colour plates is not recommended. This also applies to white text reverse printed on a dark background. This is especially important for smaller font sizes below 11pt. Larger colour text should not use more than 3 plates where possible and the total ink load should not exceed 220%.
